

Compliance: current issue videos

Date : April 1, 2015

Cordery together with Absolute Software have produced a series of short videos on topical compliance issues. The videos (ranging from 2-7 minutes long)? were filmed in our London studios and include advice on:

- how can organisations protect themselves against data breaches?
- what do organisations need to know about corporate data protection abroad?
- what are the particular concerns for healthcare providers and insurers in the UK?
- what are the main concerns for financial service providers operating in the UK?

Some of the videos also feature Jerry Ferguson of US firm BakerHostetler who gives guidance on the US position which we contrast with the situation across Europe.

You can see the videos below and on our [YouTube channel](#).
