

Data Protection in the Age of Remote Working

Date : May 18, 2021

Cordery's Jonathan Armstrong took part in a panel discussion on Tuesday 25 May 2021 to celebrate the 3rd anniversary of GDPR. The event was hosted by Netwrix.

The topics covered included:

- How 3 years of GDPR enforcement has already changed how organisations operate
- How to factor privacy concerns into your cloud strategy
- How new technology is changing how organisations approach data privacy
- How the evolving threat landscape will influence compliance regulations

The event has had great reviews and you can watch the recorded session on the Netwrix website here: https://try.netwrix.com/gdpr_anniversary_panel_discussion
