

## Episode 125: USB Danger: thumb drives, keyboards and mice - Oh My!

**Date :** August 20, 2014

This week's podcast discusses the information security risks from plugging devices into your USB; new research suggests the risks are greater than we thought. Conventional anti virus security may not protect you. What are the risks for companies as a result?

**TechLaw10** is a 10-minute audio podcast update from U.S. lawyer [Eric Sinrod](#) (Duane Morris) and UK lawyer [Jonathan Armstrong \(Cordery\)](#) where they share insights on developments where technology intersects with the law in the EU and the U.S. These well-known commentators are sought out in the media for their opinions on breaking news and developing trends. Whether you are in North America or Europe, now you can hear directly from them regarding the latest technology issues at home and across the pond.
