

## Client Alert: (ISC)<sup>2</sup> Secure Summit EMEA - 15-16 APRIL 2019, World Forum, The Hague

**Date** : April 4, 2019

(ISC)<sup>2</sup> is delighted to announce an exciting new format for the (ISC)<sup>2</sup> Secure Summit EMEA. The 2019 Secure Summit will be a unique experience, hosted 15-16 April at The World Forum, the largest international conference venue in The Hague, Netherlands. This two-day event will welcome hundreds of the best minds in cybersecurity from across Europe, the Middle East and Africa.

The EMEA Summit is themed **Enrich. Enable. Excel.**

Throughout the event, attendees will participate in **Enriching** sessions, panels and best practice sharing to sharpen their skills and hone their craft. Trainings and peer discussions will focus on relevant domains, timely issues and soft skills development that **Enable** participants to become more well-rounded, effective practitioners. And when they leave, participants will be ready to **Excel** - to achieve their professional goals and better secure their organisations.

### GDPR Data Breach Simulation Workshop

Experience teaches us that dealing with a data breach is one of the toughest things you'll ever have to do. **Jonathan Armstrong** and **André Bywater**, experts from Cordery, will use their experience of handling more than 60 breaches to simulate an attack. This workshop will enable you to look at breaches in real-time in a rapidly evolving situation helping you develop essential skills needed in a realistic environment. Our experience tells us that anyone who goes through this type of training reacts better in a real-life crisis. It is likely that the skills you have developed will give you a real advantage in dealing with your next breach. Having attended the workshop could also be regarded as a mitigating factor by a regulator.
