

Life with GDPR - Episode 24 - Phishing

Date : March 28, 2019

In this episode, Jonathan Armstrong and Tom Fox consider the increasing business risk around phishing.

There have recently been some multi-million-dollar losses around phishing so you need to be prepared.

Some of the issues and highlights in this podcast are:

- What is phishing?
- The largest number of data breaches have occurred through phishing. Why has it become such a business risk?
- What are the requirements under GDPR that a company should take against phishing?
- What are the three key concepts in data protection?
- Modern phishing attacks are very sophisticated.
- What are some of the most intricate frauds seen in this area?
